Erratum

Erratum to “The stress concentration factor for slightly roughened random surfaces: Analytical solution” [Int. J. Solids Struct. 51 (2014) 2012–2018]

H. Medina ^{a,*}, B. Hinderliter ^b^a Virginia Commonwealth University, 401 West Main Street, Room E2232, Richmond, VA 23284-3015, United States^b University of Minnesota-Duluth, Department of Mechanical and Industrial Engineering, 233 Engineering, 1305 Ordean Court, Duluth, MN 55812, United States

The publisher regrets due to a typesetter the first line of the introduction was incorrectly typeset.

Presently the lines states the following: “It is widely accepted that the first quantitative result for stress concentrations factor (k_t) was developed by Inglis (1913) and Anderson (1991)”.

However, it should state the following, instead: “It is widely accepted that the first quantitative result for stress concentrations factor (k_t) was developed by Inglis (Inglis 1913 and Anderson 1991).
